

Dry Drum Vacuum Cleaner

This vacuum cleaner is designed for dry use and features a cloth filter. It has a large dust capacity of 20L and includes accessories storage.

Product Overview

High-Capacity Dry Drum Vacuum Cleaner

The YL 6202 Series is a robust drum vacuum cleaner designed for high-performance dry cleaning in both residential and commercial environments. It features a powerful 1200-1400W motor and a large 20L dust capacity to minimize emptying frequency. With its silence-focused design and integrated accessory storage, this unit offers a professional cleaning solution that balances power with user convenience.
