Overview

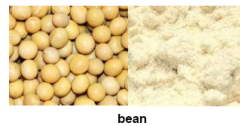

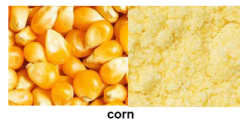

Compact Multi-Grain Milling Solution

This versatile grinding machine is engineered for efficient processing of dry grains, including rice, corn, beans, and wheat. Designed with a durable tooth-claw mechanism, it provides high-performance crushing for animal feed and flour production. Its compact, lightweight footprint and simple operation make it an ideal choice for small-scale commercial or home-based agricultural processing.

Technical Specifications

Crusher usage

Power Source

Electric Motor • Diesel Engine

Model Number

F-19ZS

Matched Power

3-5 HP

Compatible Materials

Rice, Corn, Beans, Wheat, Chilli, Spices, Herbs

Design Features

Build Quality

- Reinforced body thickness exceeding 10mm
- Balanced axle for low noise and vibration
- Durable tooth-claw crushing design
- Heavy-duty frame to prevent shaking during operation

Customization

Yes

Certifications

Certifications

CE, ISO, SGS
