

Drywall Sander with Dust Collection

This drywall sander is designed for sanding drywall and plaster surfaces. It features a long handle, a swiveling sanding head, and a dust collection system to minimize dust.

Product Overview

Professional Drywall Finishing Solution

This drywall sander is a robust power tool engineered for efficient sanding of drywall and plaster surfaces. It features an extended reach handle and a highly maneuverable swiveling sanding head, making it ideal for both professional contractors and serious DIY enthusiasts. Integrated dust collection technology ensures a cleaner workspace by significantly minimizing airborne particles during operation.
