

Dual 12-inch Woofer Multimedia Speaker with FM/USB/SD and Karaoke

This multimedia speaker is designed for stage use and features a self-amplified design. It is equipped with dual 12-inch woofers, FM radio, USB/SD card reader, equalizer, and karaoke function.

Product Overview

Multimedia Audio Experience

This dual 12-inch woofer multimedia speaker system is designed to deliver a robust audio experience for various multimedia applications. The system includes main speakers and a high-performance bass unit, allowing for flexible configuration to suit different room setups. Whether utilized for standard 2.1 channel audio or expanded configurations, it provides versatile placement options to optimize sound quality and bass resonance.

Technical Specifications

Connectivity

- FM Radio
- USB
- SD Card

Supported Channels	2.1 Channel, 4.1 Channel
Woofer Size	12 inch

Setup and Placement

Optimizing Bass Performance

For the best ultra-low sound results, place the bass box on the ground. To further strengthen the bass effect, you may position the inverted phase hole toward a wall, maintaining a distance of 5-10cm.

Optimal Listening Distance	1.5 meters
