

Dual-Arm LED Street Lighting Stem

This street lighting stem features a dual-arm design with modern LED luminaires. The pole is constructed from durable materials, ensuring longevity and resistance to environmental factors.

Product Overview

Dual-Arm LED Street Lighting Solution

This dual-arm LED street lighting stem is engineered for high-performance illumination in urban and highway environments. Featuring a durable, modern design, it combines energy-efficient LED technology with robust construction to ensure long-term reliability and reduced maintenance costs. The system is designed for quick installation, providing uniform brightness that enhances safety and visibility across public spaces and roadways.

Technical Specifications

Design Configuration	Dual-Arm
Lighting Technology	LED
Suitable Applications	Urban Roads, Highways, Pedestrian Areas, Public Spaces

Performance Features

Performance Highlights

1 High

Energy Efficiency

1 Low

Maintenance Requirement

Key Advantages

- Uniform light distribution
- Durable, weather-resistant construction
- Easy installation process
- Sleek, modern aesthetic
