Product Overview

Compact Dual-Bay Charging Solution

This intelligent dual-bay battery charger is designed for efficient, safe, and portable power management. Featuring independent charging channels and a clear LCD interface, it supports a wide variety of battery chemistries including Li-ion, Ni-MH, and Ni-Cd. Its compact form factor and Micro USB power input make it an ideal choice for professionals who need reliable charging on the go.

Technical Specifications

Supported Voltages

- 1.2V (Ni-MH/Ni-Cd)
- 3.6V (Li-ion)
- 3.7V (Li-ion)

Supported Battery Types

Li-ion, Ni-MH, Ni-Cd

Charging Channels

2 channels

Power Input

Micro USB
