

Dual Burner Gas Cooktop

This dual-burner gas cooktop features independently controlled burners. Its durable metal grates and stainless steel body ensure longevity and easy cleaning.

Product Overview

Dual Burner Gas Cooktop

This dual-burner gas cooktop is engineered for efficient and reliable cooking performance. Featuring a durable stainless steel body, it offers long-lasting resilience and is designed for easy maintenance in busy kitchen environments. With two independently controlled burners and simple knob adjustments, it provides precise control over flame intensity for various cooking needs.

Technical Specifications

Number of Burners	2
Body Material	Stainless Steel
Control Method	Knob Controls

Features

Key Features

- Independently controlled burners
- Durable metal grates
- Easy-to-clean stainless steel surface
- Adjustable flame intensity

Recommended Usage	Household, Food Preparation
