

Dual Channel UHF Wireless Microphone System

This is a dual-channel UHF wireless microphone system. It is designed for professional audio applications with adjustable frequency controls and individual channel displays.

Overview

Dual-Channel Wireless UHF System

This professional-grade UHF wireless microphone system is engineered for reliable audio performance in live settings. The system features a robust metal receiver with dual-channel LCD displays for precise frequency monitoring, paired with two durable handheld microphones. Designed for versatility, it includes both balanced XLR and unbalanced 1/4" outputs to support a wide range of sound reinforcement equipment.

Technical Specifications

Frequency Range	600-900MHz
Frequency Response	40Hz-20KHz
Operating Range	60 m
Microphone Power Supply	1.5V x 2 batteries per unit

Connectivity

Available Outputs	Balanced XLR, Unbalanced 1/4"
