Product Overview

Professional Wireless Audio

The UR-5200 is a high-performance, dual-channel wireless microphone system engineered for professional sound reinforcement. Utilizing true diversity technology with PLL synthesis, this system ensures maximum range and dropout protection even in demanding environments. Featuring 100 selectable frequencies and IR synchronization, it offers reliable connectivity and flexibility for diverse professional audio applications.

Technical Performance

Key Performance Indicators

150 m

Line-of-Sight Range

200 ch

Total Selectable Channels

105 dB

Signal-to-Noise Ratio

Frequency Range	450-952MHz
Total Harmonic Distortion	0.5 %
Frequency Response	40Hz - 18KHz

Operation & Environment

Power Requirements

- Receiver: DC 12V 1000mA
- Microphone: 2x AA Alkaline Batteries

Operating Temperature	-10 to +50 °C
-----------------------	---------------

Features

System Highlights	True Diversity, PLL Synthesized, IR Sync, LCD Display
