

Dual-Cup Electric Drip Coffee Maker

This compact coffee maker is designed for brewing two cups of coffee simultaneously. It features a dual-spout design, allowing for equal distribution into both cups.

Product Overview

Dual-Cup Brewing Efficiency

This compact electric drip coffee maker is designed for high-efficiency brewing, allowing you to prepare two cups of fresh coffee simultaneously. Featuring a smart dual-spout system, it ensures equal distribution into each cup for consistent flavor and strength. The appliance boasts a modern white and light green aesthetic, making it a perfect addition to any compact kitchen or office breakroom.
