

Dual Head Adjustable Emergency Light

This emergency light is designed with dual adjustable lamp heads. It automatically activates during power outages to provide illumination for safety and security.

Product Overview

Reliable Emergency Illumination

This self-contained Dual Head Adjustable Emergency Light is engineered for critical safety and security. Designed for automatic activation during power outages, it ensures reliable illumination in both commercial and residential environments. The unit features adjustable lamp heads to direct light exactly where it is needed most.

Technical Specifications

Input Voltage	AC 220V
Input Frequency	50 Hz
Output Voltage	DC 6V
Output Current	0.45 A
Maximum Charging Time	24 hours

Key Features

Design Highlights

- Dual adjustable lamp heads
- Automatic activation during power failure
- Self-contained unit

Model Identifier

DYZ2

Suitable Applications

Commercial, Residential, Safety Lighting
