Overview

High-Performance Emergency Lighting

This dual-head LED emergency light is engineered for reliability and safety in critical situations. Featuring a high-output design, it delivers over 650 lumens of emergency illumination, ensuring clear visibility during power outages. Built with durable, flame-rated materials and designed for easy installation, this unit is an ideal solution for commercial and industrial wall-mount applications.

Performance

Total Output

650 Lm
Lumens

Emergency Operation Time	90 min
Full Recharge Time	24 hours

Electrical

Input Voltage	120V/277VAC
Battery Specifications	6V 4AH Lead-Acid

Construction

Flame Rating	UL 94V-0
Housing Material	Injection-molded thermoplastic ABS

Installation

Mounting Type	Wall Mount
Junction Box Compatibility	Universal J-box pattern

Compliance & Safety

Certifications	UL, cULus, RoHS, CEC, DOE, FC
Operating Temperature	0°C to 40°C (Indoor Damp Locations)

Warranty

Warranty Coverage

Component	Duration
Electrical Parts & Housing	5 Years
Battery	2 Years
