

Dual Head Pickaxe Cultivator Garden Tool

This versatile garden tool features a wooden handle and a dual-head design. One head is a pickaxe-style blade for digging, while the other is a cultivator for loosening and aerating soil.

Product Overview

Versatile Dual-Head Design

This dual-head pickaxe cultivator is designed for efficient soil management and garden maintenance. Featuring a sturdy wooden handle, the tool combines a pickaxe-style blade for breaking tough ground with a multi-tine cultivator for aeration and weeding. It is an essential, versatile implement for professional landscaping and home gardening alike.
