

Dual-Head Tile Setting Hammer

This specialized hand tool is designed for installing and setting tiles. It features a dual-head design with a flat face for gently tapping tiles into place and a pointed tip for scoring or breaking tiles.

Product Overview

Professional Tile Setting Solution

This specialized dual-head tile setting hammer is engineered for precision in tile installation. Featuring a dual-head design with a flat rectangular face for setting and a pointed tip for scoring, it offers versatile performance for professional tiling projects. Its slim, elongated handle provides superior control and maneuverability when working in confined spaces.
