

Dual LED Bicycle Headlight

This bicycle headlight features dual LED lamps for enhanced visibility and safety. It has a durable, weather-resistant housing and multiple lighting modes.

Product Overview

High-Performance Dual LED Illumination

This dual LED bicycle headlight is engineered for enhanced visibility and safety during nighttime commutes or recreational rides. Constructed from durable aluminium alloy, the unit features a weather-resistant IP65 rating to withstand challenging environmental conditions. With multiple lighting modes and an adjustable 360-degree mounting system, it provides reliable, versatile illumination for cyclists.
