Product Overview

Enhanced Safety and Visibility

This dual-lens blind spot mirror is engineered to significantly expand a driver's field of view, effectively minimizing blind spots during lane changes and parking maneuvers. Featuring two independently adjustable lenses, it provides a comprehensive view of both front and rear wheel areas. The compact, aerodynamic design ensures durability and clear reflection, making it an essential upgrade for driving safety and awareness.

Physical Specifications

Colors

White • Black

Dimensions

85mm x 66mm

Material

ABS Plastic, 3M Adhesive

Installation and Packaging

Installation

Adhesive backing (3M)

Packaging

1 piece per blister card
