Product Overview

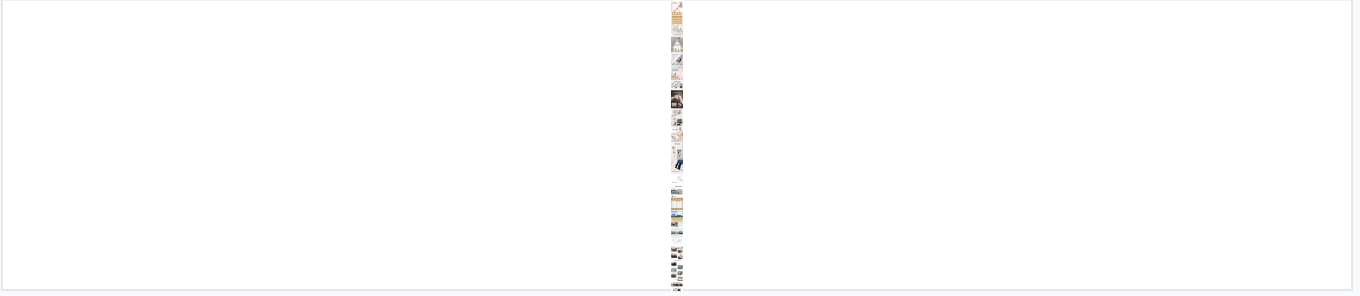

Dual-Function Fabric Care Solution

This versatile handheld appliance combines the convenience of a garment steamer with the precision of a steam iron. Featuring dual heating technology, it produces powerful steam and provides a heated ceramic-coated panel to effectively smooth wrinkles and freshen fabrics. Designed with portability in mind, it is an efficient, compact solution for both home maintenance and travel needs.

Technical Specifications

Power Rating	1300 W
Water Tank Capacity	150 ml
Continuous Steam Duration	8 mins
Steam Output Rate	16 g/min
Steam Ready Time	50 s
Exposed Cable Length	1.6 m

Performance Features

Showcasing the ceramic plate design and dual-heating technology for superior fabric care.

Performance Metrics

99.99 %

Bacteria Elimination Rate

150 °C

Ironing Panel Temperature

Operational Modes

- Steam Mode (Burst and Continuous)
- Ironing Mode (High-temperature dry press)

Certifications

CE, CB, ETL, GS, Gmart
