

Dual-Sided Air Mouse Remote with QWERTY Keyboard

This air mouse remote control is a versatile input device for smart TVs and media players. It features a dual-sided design with a standard IR remote control layout on one side and a QWERTY keyboard on the other.

Product Overview

Dual-Sided Multimedia Controller

This versatile input device is designed for seamless interaction with smart TVs, media players, and compatible multimedia systems. Featuring a dual-sided design, it combines a standard IR remote control layout on one side with a full QWERTY keyboard on the other for easy text input. Its ergonomic construction and plug-and-play functionality make it an intuitive solution for navigation and content management.
