

Dual Spool Payoff Stand

This heavy-duty payoff stand facilitates efficient material handling in industrial settings. It is designed for unwinding coils of wire, cable, and other materials with adjustable height and smooth rotation.

Overview

Industrial Dual Spool Payoff Stand

This heavy-duty dual spool payoff stand is engineered for efficient material handling in industrial environments. It features a robust steel frame with a durable green finish and an independent dual-unit design for simultaneous unwinding of wire or cable coils. Equipped with a powerful motor and advanced control system, this machine ensures precise tension control and smooth rotation for demanding production lines.

Technical Specifications

Suitable Materials

- Wire coils
- Cable coils
- Industrial materials

Design Features

Heavy-duty steel frame, Dual independent units, Adjustable height, Smooth rotation mechanism

Base Construction

Reinforced black base

Control System

Yes
