

Dual USB Wall Charger

This dual USB wall charger provides power to electronic devices. It features two USB ports, one delivering 1A and the other 2.1A, allowing simultaneous charging.

Product Overview

Dual Port Power Solution

This versatile wall charger is designed to efficiently power multiple electronic devices simultaneously. Featuring two dedicated USB ports with varying amperage, it provides flexible charging options for smartphones, tablets, and other USB-compatible electronics. Its compact design and wide voltage support make it an ideal choice for international travel and professional environments.

Technical Specifications

Charging Performance

1 A

Port 1 Output

2.1 A

Port 2 Output

Input Voltage Range	110-240V AC
Input Frequency	50-60Hz
Output Voltage	5.1 V

Logistics

Country of Origin	China
