

Dual Zone Wine Cellar Refrigerator

This dual zone wine cellar is equipped with soft touch controls and an electrical display. It features a tempered door with a stainless steel frame, slide-out shelves, and a no-frost cooling system with a capacity of 111 bottles.

Product Overview

Professional Dual Zone Cooling

This premium dual-zone wine cellar provides the ideal storage environment for wine enthusiasts and professional settings alike. With two independent temperature zones, you can maintain optimal chilling conditions for both red and white varieties simultaneously. The unit combines a sophisticated stainless steel aesthetic with modern digital controls, ensuring your collection is preserved perfectly while displayed in style.
