

Duplex Receptacle with USB Charging Ports

This duplex receptacle includes integrated USB ports for charging devices. It features tamper-resistant outlets and durable construction for commercial or residential use. Class 2, 5Vdc 3.1A.

Product Overview

Versatile Power and Charging

This duplex receptacle integrates standard power outlets with high-speed USB charging ports, offering a streamlined solution for modern electrical needs. Designed for durability and safety, it features tamper-resistant outlets suitable for both residential and commercial applications. The built-in USB ports provide convenient charging for mobile devices, eliminating the need for bulky adapters.
