

# Durable Latex Safety Gloves for General Use

These durable latex gloves provide excellent protection and grip for various tasks. Featuring textured palms and fingers, these gloves offer enhanced dexterity and resistance to punctures, tears, and abrasions.

## Product Overview

### Winter-Ready Protection

These durable safety gloves are designed for high-performance use in cold environments. Featuring a dual-layer construction with a brushed acrylic liner and a polyester shell, they provide essential warmth and comfort. The fully coated orange latex base combined with a black sandy latex palm ensures excellent grip and waterproof protection for demanding tasks.

## Construction & Materials

### Material Composition

- Brushed acrylic liner (7 gauge)
- Polyester outer shell (15 gauge)
- Latex coating

### Coating Style

Fully Coated, Sandy Latex Palm, Waterproof

## Performance Features

### Key Performance Metrics

**7 gauge**
