Product Overview

Durable Rubber Parking Bumper

These high-quality rubber parking bumpers are engineered to protect vehicles and infrastructure from impact damage. Constructed from durable, weather-resistant rubber, they are designed to withstand oil, chemicals, and extreme temperatures for long-lasting performance. Featuring high-visibility yellow stripes, they ensure safety in low-light conditions across garages, parking lots, and loading docks.

Technical Specifications

Safety Features

- High-visibility yellow stripes
- Reflective design for low-light conditions
- Shock-absorbing construction

Material Composition

High-Quality Rubber, Impact-Resistant, Weather-Resistant, Oil Resistant, Chemical Resistant

Application & Usage

Suitable Environments

Parking Lots • Garages • Loading Docks

Maintenance

Easy to install and maintain
