

Durable Steel Frame Tricycle for Toddlers

This tricycle is designed with a robust steel frame and durable tires, ensuring smooth rides. It features a comfortable seat and easy-to-grip handlebars, perfect for developing coordination and balance in young riders.

Product Overview

Built for Durability and Growth

This tricycle is engineered with a robust steel frame designed to withstand the rigors of daily outdoor play. It provides a stable and comfortable platform for young children to develop essential coordination and balance skills. The thoughtful design, featuring a classic red and black color scheme, ensures both visual appeal and long-lasting performance for young riders.
