

Dust Mask Set with Exhalation Valve

This dust mask set includes two masks designed for respiratory protection against dust and airborne particles. Each mask is equipped with a multi-layer filter and exhalation valve to enhance filtration and user comfort.

Product Overview

Respiratory Protection

This 2-piece dust mask set provides reliable respiratory protection, featuring 4-ply construction and an integrated exhalation valve for enhanced comfort in hot or humid conditions. Designed for versatility, these masks include an adjustable aluminum nose clip and secure rubber belts to ensure a proper fit. They are ideal for various applications, including grinding, sanding, and sweeping tasks.
