

# E27 Edison Screw Lampholder

This white plastic lampholder features an E27 Edison screw base for secure bulb installation. Its durable, heat-resistant construction ensures longevity and safety in residential and commercial lighting applications.

## ADDITIONAL IMAGES

## Product Overview

### Professional E27 Lampholder

This E27 Edison screw lampholder is engineered for reliability and safety in both residential and commercial lighting applications. Constructed from high-quality, heat-resistant PP and Bakelite materials, it ensures long-lasting performance and resistance to color fading. Its distinctive petal-shaped design adds an aesthetic touch to lighting fixtures while maintaining a secure and standard electrical connection.

## Technical Specifications

### Safety Features

- Heat-resistant construction
- Color-fade resistant
- Secure internal electrical contacts
