

E27 LED Energy-Saving Lamp

This energy-saving LED lamp provides soft, warm light suitable for wall, table, and room lamps. It features an E27 screw base for easy installation.

Overview

Efficient Lighting Solution

This LED energy-saving lamp is designed for efficient and long-lasting illumination in various settings. Featuring a standard E27 base, it is compatible with a wide range of wall lamps, table lamps, and room lighting fixtures. The bulb provides consistent, soft warm light while consuming minimal energy, making it a cost-effective and sustainable choice for both residential and commercial applications.
