

E27/B22 Decorative LED Filament Bulb

These classic decorative LED bulbs are available in amber and smoky finishes. They come in T45, A60, and ST64 shapes and operate on 110-130V/220-240V with an E27/B22 base.

Overview

Vintage Aesthetic, Modern Efficiency

These decorative LED filament bulbs bring a timeless vintage charm to any interior space while delivering the energy efficiency of modern LED technology. Available in multiple classic shapes including T45, A60, and ST64, these bulbs offer warm color temperatures ranging from 1800K to 2200K, perfect for creating an inviting atmosphere. Designed for durability and performance, they feature a 15,000-hour lifespan and instant 100% light output, making them an ideal choice for both residential and commercial decorative lighting applications.

Technical Specifications

Base Type	E27/B22
Operating Voltage	110-130V / 220-240V
Lifespan	15000 hours
Color Rendering Index (CRI)	Ra e 80

Performance Metrics

Performance Highlights

2200 K

Max Color Temp

30000 cycles

Switching Cycles

360 °

Beam Angle

Model Variants

Bulb Dimensions

Model	Diameter (mm)	Height (mm)
T45	45	114
A60	60	110
ST64	64	144

Compliance & Environment

Certifications	CE, EMC, RoHS
Operating Temperature	-40°C to +20°C
