Product Overview

Professional Grade Earth Auger

This powerful 43cc 2-stroke earth auger is engineered for efficient soil drilling, making it an ideal choice for fence post installation, tree planting, and soil sampling. It features innovative Iso-Vibe Flex Coil Technology to deliver maximum drilling power while minimizing operator fatigue caused by twisting and jerking. Designed for both performance and ease of use, this tool ensures smoother hole starting and reduced slippage in various soil conditions.

Technical Specifications

Engine Displacement	43 cc
Engine Type	2-stroke gasoline

Key Features

Certifications

EPA Approved

Performance Technology

Iso-Vibe Flex Coil, Fishtail Point

Operational Benefits

Usability Features

- Lightweight construction
- Ergonomic design for easy operation
- Reduced slippage during hole starting
- Minimized twisting and jerking
