

Earth Moving Excavator

This is construction machinery. It is an earth moving excavator.

Product Overview

Heavy-Duty Earth Moving Excavator

This high-performance earth moving excavator is engineered for demanding construction and infrastructure projects. Designed with robust hydraulics and a reinforced chassis, it delivers exceptional digging force and operational stability in challenging terrain. It is an ideal solution for contractors seeking reliability, efficiency, and long-term durability in heavy excavation tasks.

Key Performance Metrics

Operating Weight

22000 kg

Operating Weight

Bucket Capacity

1.1 m³

Bucket Capacity

Technical Specifications

Engine Type	Turbocharged Diesel
Max Digging Depth	6500 mm
Max Dump Height	6800 mm

Features

Operator Comfort Features

- Ergonomic joystick controls
- Adjustable suspension seat
- Climate control system
- High-visibility cabin

Certifications

ISO 9001, CE Certified, ROPS/FOPS Cabin
