

# ECG and HRV Monitoring Smart Band

This smart band features ECG and HRV monitoring for comprehensive health insights. It tracks heart rate, blood pressure, sleep patterns, steps, and calories burned, with data accessible via a dedicated mobile app.

## ADDITIONAL IMAGES

## Product Overview

### Comprehensive Health Management

This advanced smart band is engineered for professional-grade health monitoring, offering precise ECG and HRV tracking to support cardiovascular wellness. It combines real-time vital sign analysis with standard fitness tracking functionalities, including step counting and calorie calculation. Designed for all-day wear, the device features skin-friendly materials and a user-friendly touch interface to ensure seamless data management.

## Technical Features

### Real-time Metrics

**98 BPM**

Heart Rate

### Health Monitoring Features

ECG Monitoring, HRV Tracking, Blood Pressure Monitoring, Heart Rate Tracking

### Blood Pressure Measurement

168/098 mmHg

## Connectivity & Compatibility

### System Requirements

- iOS Compatible
- Android Compatible
- Bluetooth Connectivity

## Design & Build

### Build Quality

Durable • Skin-friendly • Touch-sensitive Display
