Product Overview

Reliable Power for Medical Monitoring

This high-performance battery pack is specifically engineered for use in critical ECG machines and patient monitoring equipment. Designed for durability and consistent output, it ensures uninterrupted operation during essential medical procedures. Its robust construction meets the demanding power requirements of healthcare environments.

Technical Specifications

Voltage	12 V
Capacity	2000 mAh
Battery Chemistry	Ni-MH / Ni-Cd
Model Number	270719010

Physical Attributes

Weight	844 g
Dimensions	128 x 52 x 51.5 mm
Color	White, Yellow

Compatibility

Compatible Equipment

- ECG Machines
- Patient Monitors
