

ECU Diagnostic and Chip Tuning Cable

This cable is a hardware solution for automotive chip tuning. It is compatible with modern diesel TDi, HDi, JTD, and petrol cars, working on EDC16, EDC15, MEx.x, DELCO and other engine ECUs.

Product Overview

Professional ECU Tuning Solution

The EOBD2 Flasher 1260 is a specialized hardware tool designed for automotive chip tuning and ECU diagnostics. It provides reliable communication between a computer and a vehicle's engine control unit, supporting a wide range of modern diesel and petrol engine systems. This versatile tool is an essential addition for automotive technicians looking to perform ECU data reading and writing for performance optimization.

Compatibility & Support

Supported Engine Types

- TDi
- HDi
- JTD
- Petrol

Supported ECU Systems

EDC16, EDC15, MEx.x, DELCO
