Overview

Robust Agricultural Mowing Solution

The EFGC series lawn mower is a high-performance agricultural implement engineered for efficient vegetation management and land maintenance. Designed for durability and versatility, it features a heavy-duty steel frame and a reliable rotary cutting mechanism, making it suitable for various terrains. The unit attaches easily to tractors via a three-point hitch system and is powered by a PTO shaft, ensuring consistent performance across demanding agricultural and landscaping environments.

Technical Specifications

Model	EFGCH-145	EFGCH-155	EFGCH-165	EFGCH-175
Dimension(L*W*H)	1665*925*1035mm	1665*925*1035mm	1765*925*1035mm	1865*925*1035mm
Structure Weight	327kg	342kg	357kg	369kg
Cutting Width	1.42m	1.52m	1.62m	1.72m
Working Efficiency	4600-12400m ² /h	4900-13000m ² /h	5200-13800m ² /h	5500-14400m ² /h
PTO Turning Speed	540r/min	540r/min	540r/min	540r/min
PTO Spline	6*8*900mm	6*8*900mm	6*8*900mm	6*8*900mm
Power Required	30-35HP	30-40HP	35-45HP	40-50HP

PTO Requirements

540 r/min

Turning Speed

900 mm

Spline Length

Model Specifications

Model	Cutting Width (m)	Weight (kg)	Power Req. (HP)
EFGCH-105	1.02	260	18-25
EFGCH-115	1.12	275	18-25
EFGCH-125	1.22	287	18-25
EFGCH-135	1.32	302	20-30
EFGCH-145	1.42	327	30-35
EFGCH-155	1.52	342	30-40
EFGCH-165	1.62	357	35-45
EFGCH-175	1.72	369	40-50

Available Models

EFGCH-105, EFGCH-115, EFGCH-125, EFGCH-135, EFGCH-145, EFGCH-155, EFGCH-165, EFGCH-175

Key Features

Key Features

- Three-point hitch system for tractor compatibility
- Adjustable support wheels for consistent cutting height
- Heavy-duty blades for effective vegetation management
- Durable red-painted steel frame construction
- Rotary cutting mechanism with protective housing
