

Eight-Passenger Open-Air Electric Classic Car

This electric vehicle accommodates eight passengers and features a classic car aesthetic. It has an open-air design with a covered top and is ideal for transportation in resorts and parks.

Overview

Classic Design, Modern Utility

The LQL080 is an eight-passenger electric vehicle designed with a distinct classic car aesthetic, perfect for leisurely transportation. Its open-air configuration, paired with a protective covered top, ensures a comfortable experience for passengers in resorts, parks, and similar environments. Featuring vintage-style headlights and chrome accents, this vehicle combines nostalgic charm with efficient, modern electric performance.
