Overview

Versatile Air Circulation Solutions

This collection of electric air circulation fans is designed to enhance comfort in both residential and professional environments. Featuring robust construction with safety-focused designs, these units provide efficient airflow through adjustable settings and oscillation capabilities. Whether you require floor-standing pedestal models, space-saving wall-mounted units, or ceiling-integrated systems, these fans are engineered to optimize ventilation and cooling.

Pedestal Fan

Key Features

- Adjustable height
- Oscillating head for wide coverage
- Multiple speed settings
- Protective safety cage

Ideal Use Cases

Home, Office, General Ventilation

Ceiling Fan

Design Specifications

- Three-blade configuration
- Central motor housing
- Downrod mounting system

Environment

Residential • Commercial

Wall-Mounted Fan

Technical Details

- Multi-blade propeller
- Safety grill enclosure
- Pivoting mount for directional airflow
- Integrated speed control panel

Primary Advantage

Space-saving design ideal for areas with limited floor space.
