

Electric Air Fryer with Timer and Temperature Control

This air fryer features a mechanical adjustable thermostat for temperature control and a 60-minute timer with automatic shut-off. It has multiple air flow racks providing three cooking layers, an extra-large easy-grip handle, a crystal-clear XL viewing window, and non-slip feet.

Product Overview

Versatile Healthy Cooking Solution

The Electric Air Fryer AF-602 is a professional-grade kitchen appliance designed for efficient and healthy food preparation. Featuring a mechanical interface with adjustable thermostat and timer controls, it allows for precise cooking across a wide range of temperatures. The extra-large viewing window and multi-layer rack system make it an ideal choice for high-capacity, monitored cooking without heat loss.
