

Electric Angle Grinder

This angle grinder is a powerful tool designed for grinding and cutting various materials. It features a robust 2000W motor, delivering high performance for demanding applications.

Overview

High-Performance Electric Angle Grinder

This professional-grade angle grinder is engineered for demanding grinding and cutting applications. Equipped with a robust 2000W motor, it delivers consistent power for heavy-duty tasks. The tool offers versatile operation with adjustable speed settings and compatibility with multiple wheel diameters to suit specific project requirements.

Technical Specifications

No-Load Speed

- 6000
- 8000

Input Power

2000 W

Compatible Wheel Diameters

150mm, 180mm, 230mm

Model Variants

Available Models

Model	Wheel Diameter (mm)
SIM-150	150
SIM-180	180
SIM-230	230
