Product Overview

Professional Electric Angle Grinder

This professional-grade electric angle grinder is engineered for versatile performance in grinding, polishing, and cutting tasks. Featuring a robust motor and a durable aluminum body, it is built to handle demanding applications across metalworking, construction, and woodworking. The ergonomic design and integrated side handle ensure enhanced control and comfort during extended use.

Technical Specifications

Model Number	S1M-115
Available Article Numbers	WY0518, WY0519, WY0520, WY0521
Body Material	Aluminum

Key Features

Suitable Materials

- Metal
- Stone
- Concrete
- Wood

Design Highlights

Compact Design • Ergonomic Handle • Side Handle Control • Adjustable Guard • Spindle Lock
