

Electric Angle Grinder for Cutting and Polishing

This angle grinder is designed for cutting, grinding, and polishing various materials. It features a powerful motor and ergonomic design for demanding applications.

Product Overview

High-Performance Industrial Angle Grinder

This 2400W electric angle grinder is engineered for heavy-duty cutting, grinding, and polishing tasks across metalworking and construction environments. Designed for efficiency and durability, it features a robust construction and an ergonomic build to handle demanding applications. The tool includes integrated safety features like a protective guard and a spindle lock mechanism for reliable, secure operation.

Technical Specifications

Model Number	8230G
Power Output	2400 W
Spindle Size	M14

Performance Metrics

Rotational Speed

8000 RPM

Max Speed

6500 RPM

Rated Speed

Supported Disc Diameters

- 180
- 230

Features

Safety Features

Safety Guard • Spindle Lock

Primary Applications

Cutting, Grinding, Polishing, Metalworking, Construction
