

Electric Angle Grinder for Metal and Stone

This electric angle grinder is designed for grinding, cutting, and polishing. It is suitable for use on materials like metal, stone, and tile.

Product Overview

Versatile Cutting and Grinding Solution

This electric angle grinder is engineered for professional metalworking and masonry tasks. It features a robust motor housing and an integrated spindle lock system, allowing for efficient and safe disc changes during demanding operations. Equipped with a protective guard and ergonomic side handle, it provides both the durability and control required for cutting, grinding, and polishing a wide range of materials including metal, stone, and tile.

Technical Specifications

Safety & Design

- Integrated safety guard
- Spindle lock mechanism
- Side handle for ergonomic control
- Durable motor housing

Included Components

Side Handle • Grinding Disc • Safety Guard

Application

Metalworking, Stone Cutting, Tile Polishing
