

Electric Automotive Polisher

This electric polisher is designed for automotive detailing and surface finishing. It features a variable speed control, ergonomic handle, and durable construction for effective removal of scratches and oxidation.

Overview

Professional Automotive Polishing Solution

This high-performance electric polisher is engineered specifically for automotive detailing and surface finishing. It features precision variable speed control to adapt to various applications, ensuring optimal results on different paint conditions. Designed with an ergonomic handle for prolonged comfort and a durable build for long-lasting reliability, it is the ideal tool for removing scratches, swirl marks, and oxidation from painted surfaces.

Technical Specifications

Surface Treatment Capabilities

- Scratch Removal
- Swirl Mark Removal
- Oxidation Removal

Primary Application	Automotive Detailing & Surface Finishing
Key Features	Variable Speed Control, Ergonomic Handle, Durable Construction
