

Electric Bicycle Battery Pack

This high-capacity battery pack is designed for electric bicycles. It features a durable aluminum casing for protection and heat dissipation and is intended for use with electric bike conversion kits or as a replacement battery.

Overview

High-Performance E-Bike Power

This high-capacity battery pack is specifically engineered for electric bicycles, offering reliable power for conversion kits or as a direct replacement. Encased in a durable aluminum housing, the unit is designed for optimal heat dissipation and physical protection during transit. It features a secure, robust connector to ensure efficient power transfer and is built for straightforward, secure mounting on standard bicycle frames.

Technical Specifications

Casing Material	Aluminum
Mounting Location	Bicycle Frame
Key Features	Heat Dissipation, Secure Connector, High Capacity, Durable Casing
