

Electric Bicycle Battery Pack with Integrated Display

This high-capacity battery pack is designed for electric bicycles. It features a durable aluminum casing, integrated charging port, and a display indicating charge level and operational status.

Product Overview

High-Capacity E-Bike Power Solution

This electric bicycle battery pack is engineered for reliability and convenience, featuring a high-capacity design suitable for a wide range of e-bike models. It is encased in a durable aluminum housing that protects internal components while facilitating efficient heat dissipation. With an integrated charging port and a built-in display for real-time charge monitoring, this unit offers a seamless user experience for daily commuting or long-distance riding.

Physical Specifications

Casing Material	Aluminum
Portability	Integrated Handle, Easy Removal

Technical Features

Display Functions

- Charge level indication
- Operational status monitoring

Integrated Display	Yes
Charging Interface	Integrated charging port
