

Electric Bicycle Motor Controller

Electric bicycle motor controller designed for efficient and reliable performance. Suitable for a range of electric bicycle applications.

Overview

High-Efficiency Motor Control

The RKD15 series electric bicycle motor controller is engineered for reliable and efficient power management in electric vehicle applications. Housed in a robust aluminum casing, it ensures optimal heat dissipation and protection for internal components during operation. This versatile controller supports a range of electric bicycle functions, making it a dependable choice for demanding mobility projects.

Electrical Specifications

Rated Voltage	202 V
Rated Power	1000 W
Rated Current	30 A
Throttle Voltage Range	1-4V

Key Metrics

Performance Metrics

1000 W Power	30 A Current	120 RPM Speed

Product Details

Model Number	RKD15241-1J
Casing Material	Aluminum
Design Features	Aluminum Casing, Heat Dissipation, Multi-wire Connection
