

Electric Bicycle with Rear Passenger Seat

This electric bicycle includes a rear passenger seat and footrests. It has a step-through frame and an integrated electric motor.

Product Overview

Heavy-Duty Electric Utility Bicycle

This robust electric bicycle is engineered for versatility and heavy-duty transport, featuring a dedicated rear passenger seat complete with footrests. Its step-through frame design ensures ease of use, while the integrated rear-wheel motor provides reliable power for daily commutes or cargo transport. Built with a focus on durability and functionality, this model is an ideal solution for urban mobility and short-distance delivery needs.
