

Electric Bike Battery Charger

This charger is designed for electric bike batteries, ensuring efficient and safe charging. It features automatic shut-off and LED indicators, and is compatible with a range of battery types.

Product Overview

Intelligent Charging Solution

This intelligent battery charger is designed specifically for electric bicycle batteries, ensuring efficient and safe power delivery. It features advanced protection mechanisms against common electrical faults, including overvoltage, overcurrent, and short circuits. With its compact form factor and clear LED status indicators, it offers a reliable and portable solution for e-bike maintenance.

Safety & Performance

Safety Protections	Overvoltage Protection, Overcurrent Protection, Short Circuit Protection, Automatic Shut-off
Indicators	LED charging status indicators

Design & Portability

Form Factor	Compact and portable
