Overview

Professional Electric Cable Hoist

This high-performance electric cable hoist is engineered for demanding industrial and workshop environments. It features a robust 100% copper wire motor with integrated overheat protection, ensuring reliability and longevity during heavy-duty operations. Designed with user safety in mind, it includes a high-performance braking system, upper and lower limit switches, and an emergency stop function to prevent accidents. Compliant with international safety standards including EN-14492-2 and UL1340, this hoist is an essential tool for material handling, construction, and garage applications.

Performance Metrics

Lifting Capacity

500 kg

Single Hook

999 kg

Pulley Hook

Lifting Speed

8 m/min

Single Hook

4 m/min

Pulley Hook

Lifting Height

12 m

Single Hook

6 m

Pulley Hook

Technical Specifications

IP Rating

IP54

Power Requirements

220/230V - 50Hz

Input Power

1600 W

Safety & Compliance

Compliance Standards

- EN-14492-2
- UL1340

Certifications

CE, GS, EMC, RoHS 2.0, ETL, CETL

Construction

Motor Features

- 100% Copper wire
- High grade silicon steel
- Overheat protection
- Automatic brake system

Wire Rope Details

Galvanized aircraft wire rope, anti-twist, 19x7 structure
