

# Electric Car Polisher Buffer

This electric power buffer and polisher is designed for automotive detailing and surface finishing. It features a rotary motion for efficient polishing and buffing, with variable speed settings for different applications.

## Overview

### Professional Electric Polisher

This high-performance electric power buffer and polisher is engineered specifically for automotive detailing and precision surface finishing. Featuring a reliable rotary motion system, it effectively removes stubborn scratches, swirl marks, and oxidation from painted surfaces. Designed for continuous operation, this corded tool ensures consistent power for extended detailing sessions, leaving a smooth, high-gloss finish.

## Technical Specifications

Power Source	Corded Electric
Operation Type	Rotary

## Features

### Key Features

- Variable speed control
- Side handle for enhanced control
- Includes polishing bonnet
- Continuous power corded design

## Applications

Primary Applications	Automotive Detailing, Surface Finishing, Scratch Removal, Oxidation Removal, Swirl Mark Removal
